

Wisconsin Integrated HIV Prevention and Care Plan Goal 1-Prevent New Infections SAPG Discussion

Jacob Dougherty, HIV Prevention Supervisor
Thursday, April 28, 2022

WISCONSIN DEPARTMENT
of HEALTH SERVICES

Agenda

- Overview of Integrated Plan and Goal 1
- Goal Workgroup Process and Tasks
- Needs Assessment Data Related to Goal 1
- Review Strategies and Activities from Previous Integrated Plan
- Brainstorm
- Next Steps

National HIV Goals, Vision, and Priority Populations

Goals

The Strategy focuses on four goals to guide the nation toward realizing this vision:

GOAL 1
Prevent New HIV Infections.

GOAL 2
Improve HIV-Related Health Outcomes of People with HIV.

GOAL 3
Reduce HIV-Related Disparities and Health Inequities.

GOAL 4
Achieve Integrated, Coordinated Efforts That Address the HIV Epidemic Among All Partners.

Learn more about the **National HIV/AIDS Strategy** at [HIV.gov/topics/nhas](https://www.hiv.gov/topics/nhas)

Strategy Vision

The United States will be a place where new HIV infections are prevented, every person knows their status, and every person with HIV has high-quality care and treatment, lives free from stigma and discrimination, and can achieve their full potential for health and well-being across the life span.

This vision includes all people, regardless of age, sex, gender identity, sexual orientation, race, ethnicity, religion, disability, geographic location, or socioeconomic circumstances.

Priority Populations

- Gay, bisexual, and other men who have sex with men, in particular Black, Latino, and American Indian/Alaska Native men
- Black women
- Transgender women
- Youth aged 13–24 years
- People who inject drugs

Integrated HIV Prevention and Care Plan

- Required by CDC and HRSA every 5 years
- Current plan was developed in 2016- in place from 2017-2021
- Guidance for new plan released in June 2021
- Final plan for 2022-2026 due for submission December 9, 2022
- Internal Goal: Finalize draft of integrated plan by **October 10, 2022** for internal review

Why Integrated Planning?

- Ensures collaboration among HIV prevention, care, STI, and harm reduction public health staff
- Creates opportunity for alignment of strategies and plans- STI, HIV, and HCV
- Ensures input from community partners in our planning efforts:
 - SAPG
 - Local Health Departments
 - Agencies funded to provide services
 - Communities impacted by HIV, STIs, HCV
 - Organizations that provide HIV, STI, and Harm Reduction Services

Integrated Plan Sections

- Section I: Executive Summary
- Section II: Community Engagement and Planning Process
- Section III: Contributing Data Sets and Assessments
 - Epidemiologic Snapshot
 - Needs Assessment
 - Resource Inventory
- Section IV: Situational Analysis
- **Section V: 2022-2026 Goals and Objectives**
- Section VI: 2022-2026 Integrated Planning Implementation, Monitoring, and Jurisdictional Follow-Up
- Section VII: Letters of Concurrence

Integrated Plan Goals

- Wisconsin goals will mirror goals in the National HIV/AIDS Strategy (NHAS)
 - Goal 1: Prevent new HIV infections
 - Goal 2: Improve HIV-related health outcomes of people with HIV
 - Goal 3: Reduce HIV-related disparities and health inequities
 - Goal 4: Achieve integrated, coordinated efforts that address the HIV epidemic among all partners

Goal Workgroup Tasks

- Responsible for developing objectives, strategies, and activities for each goal for inclusion in the Integrated Plan (Section V)
- Responsible for gathering input from SAPG specific to the goal
- Responsible for getting feedback on objectives, strategies, and activities from external partners and community members

Developing Objectives, Strategies, Activities

- How will we do it?
 - Template
 - At least two objectives for each goal
 - At least three strategies for each objective
 - For each strategy, an accompanying narrative describing the strategy and at least three activities that address the strategy. The activities should include priority populations, responsible parties, timeframe, and data indicators
 - SAPG meeting- focus on each goal
 - Gathering feedback and incorporating it into template
 - Focus on incorporating health equity into objectives, strategies, and activities

Integrated Needs Assessment

- Diverse & Resilient contracted to complete Integrated HIV Prevention and Care Needs Assessment- report delivered on April 11, 2022
- Two surveys- a community survey (126 respondents) and a provider survey (83 respondents)
- Focus group- 26 participants

Key Needs Assessment Findings Related to Goal 1

- At-Home HIV Tests
 - Majority of respondents never used an at-home HIV test but also said “yes” or “maybe” they would be interested in using one
- Condom Use
 - Only 12% of respondents report using condoms during vaginal/anal sex every time, while 25% report never using condoms for vaginal/anal sex
 - 52% report never using condoms for oral sex while only 5% say they always use condoms during oral sex
 - 95% of respondents say they have easy access to condoms when they need them

Key Needs Assessment Findings Related to Goal 1

- Syringe Services
 - 28% of respondents use syringes to inject drugs, and 18% shared syringes; 91% report using sterile equipment every time or most of the time
 - Of PWID respondents, 57% share needles sometimes to most of the time, 11% are HIV positive (25% not in care)
 - 89% indicate they know where to get sterile equipment/supplies in their area and a majority (73%) are “extremely” or “quite” comfortable going to a syringe services program

Key Needs Assessment Findings Related to Goal 1

- Social Determinants of Health
 - Employment, Housing Stability, Access to Care/Insurance, Stigma, Mental Health, Safety, Experiences of Oppression, and Transportation all identified as barriers to achieving care outcomes
- Telehealth
- Majority of respondents said “yes” or “maybe” that telehealth would be a good option for them

Key Needs Assessment Findings Related to Goal 1

- PrEP/PEP
 - Large majorities of priority populations have heard of PrEP (85% of total respondents), but only 12% indicated they are currently taking it
 - 36% of total respondents indicated they “would not be interested in taking PrEP” even if they feel they are at risk for HIV
 - Large majorities of priority populations have heard of PEP (75% of total respondents), and 68% indicate they would know how to obtain it

Previous Plan

Small Group Discussion

Breakout Groups

- In-Person:
 - Group 1: Amy (facilitator), Elizabeth (notetaker)
 - Janice Brown, Juan Flores, Elle Hill, Falcia Martinez, Shannon Prissel
 - Group 2: Ricardo (facilitator), Dan (notetaker)
 - Max Hannah, Chris Lee, Larry Ponder, Amanda Schumacher, Joy Wedel
 - Group 3: Loriann (facilitator), Craig (notetaker)
 - Niko Yelic, Aniyah Tomah, Imani Sloan, Justin Roby
 - Group 4: Syd (facilitator), Jacob (notetaker)
 - Broderick Pearson, Jamal Perry, Rick Rose, James Stewart, Melissa Ugland

Breakout Groups

- Virtual:
 - Group 1: Vipul (facilitator), Megan (notetaker)
 - Cathy Augustine, Thomas Eades, Mike Fitzpatrick, Hailey Keeser, Sol Aldrete
 - Group 2: Allison (facilitator), Bethany (notetaker)
 - Alex Corona, Jose Estrada, Matthew Lewis, I'jah Watson

Small Group Breakout Discussion

- What specific interventions/activities should we consider implementing to prevent new HIV infections in Wisconsin in the next 5 years?

Questions for Discussion

- Considering the strategies and activities presented in the previous integrated plan (on the 10-pager), what do you think has worked towards preventing new HIV infections and we should continue doing?
- What isn't included in the previous integrated plan for goal 1 that should be included in the new plan, or should be updated from the previous plan?

Questions for Discussion

- What do you see as key resources/strengths in Wisconsin to successfully achieve the goal of reducing new HIV infections in the next five years?
- What do you see as the key challenges to successfully achieve the goal of reducing new HIV infections in the next five years?

Next Step- Draft Objectives

- Using SAPG feedback and notes, we will regroup and draft objectives, strategies and activities based on today's input, and bring it back for review

Questions?

Thank you!
