# National HIV Strategic Plan: A Roadmap to End the HIV Epidemic 2021-2025 Draft

Jacob Dougherty, Health Department Co-Chair

# Background

- National HIV/AIDS Strategy for the US first developed by Obama administration in 2010
  - ◆ Updated in 2015, expires in 2020
  - ◆ Served as the nation's roadmap for addressing the HIV epidemic

# Updates to National US Strategy

- New updated US strategy drafted, includes latest science to address HIV epidemic
- New plan will be known as the HIV National Strategic Plan
- Designed to be accessible and useful to a broad audience:
  - ◆ People working in public health, health care, government, academia, research, community-based organizations

# Purpose of the Plan

- Serves as a roadmap for stakeholders from all sectors of society to guide development of policies, services, programs, initiatives, and other actions to achieve the nation's vision of ending the HIV epidemic by 2030.

# Process for Updating the Strategy

- Process started in 2018
- Facilitated by Office of Infectious Disease and HIV/AIDS Policy (OIDP), HHS
- Federal steering committee included six federal departments and 12 HHS agencies and offices
- Aligned with the Ending the HIV Epidemic initiative, Healthy People 2030, Viral Hepatitis National Strategic Plan, STI National Strategic Plan, and the National Vaccine Plan

# Community Input on the Plan

- ODP has facilitated multiple opportunities for stakeholder input in the development of the HIV plan, including:
  - ◆ 18 listening sessions which generated 312 comments
  - ◆ Solicitation of public comments through the Request for Information in Feb. 2019 and resulted in receipt of 49 written public comments
  - ◆ December 2020 round of public comments

# Release of New Plan

- Plan will be released in early 2021, after this round of comments are received

  - ◆ Priority Populations
  - ◆ Key Focus Areas
  - ◆ Development of the HIV National Strategic Plan
- Goals and Related Objectives, Strategies, and Indicators of Progress
- Implementation and Accountability
- Appendices

# Vision

“The United States will be a place where new HIV infections are prevented, every person knows their status, and every person with HIV has high-quality care and treatment and lives free from stigma and discrimination.

This vision includes all people, regardless of age, sex, gender identity, sexual orientation, race, ethnicity, religion, disability, geographic location, or socioeconomic circumstance.”

# Goal 1: Prevent New HIV Infections

- **Objective 1.1:** Increase awareness of HIV
- **Objective 1.2:** Increase knowledge of HIV status
- **Objective 1.3:** Expand and improve implementation of effective prevention interventions, including treatment as prevention, PrEP, PEP, and SSPs, and develop new options
- **Objective 1.4:** Increase the capacity of health care delivery systems, public health, and the health workforce to prevent and diagnose HIV

# Goal 2: Improve HIV-Related Health Outcomes of People with HIV

- **Objective 2.1:** Link people to care immediately after diagnosis and provide low-barrier access to HIV treatment
- **Objective 2.2:** Identify, engage, or reengage people with HIV who are not in care or not virally suppressed
- **Objective 2.3:** Increase retention in care and adherence to HIV treatment to achieve and maintain long-term viral suppression
- **Objective 2.4:** Increase the capacity of health care delivery systems, public health, and the health workforce to serve people with HIV

# Goal 3: Reduce HIV-Related Disparities and Health Inequities

- **Objective 3.1:** Reduce HIV-related stigma and discrimination
- **Objective 3.2:** Reduce disparities in new HIV infections, in knowledge of status, and along the HIV care continuum
- **Objective 3.3:** Engage, employ, and provide public leadership opportunities at all levels for people with and at risk for HIV
- **Objective 3.4:** Address social determinants of health and co-occurring conditions that exacerbate HIV-related disparities

# Goal 4: Achieve Integrated, Coordinated Efforts that Address the HIV Epidemic among All Partners and Stakeholders

- **Objective 4.1:** Integrate programs to address the syndemic of HIV, STIs, viral hepatitis, and substance use and mental health disorders
- **Objective 4.2:** Increase coordination of HIV programs across all levels of government (federal, state, tribal, local, and territorial) and with faith-based and community-based organizations, the private sector, academic partners, and the community
- **Objective 4.3:** Enhance the quality, accessibility, sharing, and use of data, including HIV prevention and care continuum and social determinants of health data
- **Objective 4.4:** Identify, evaluate, and scale up best practices including through translational, implementation, and communication science research
- **Objective 4.5:** Improve mechanisms to measure, monitor, evaluate, report, and disseminate progress toward achieving organizational, local, and national goals

# Priority Populations

- Gay, bisexual, and other men who have sex with men, in particular Black, Latino, and Indigenous people
- Black Women
- Transgender Women
- Youth aged 13-24
- People who inject drugs

# Small Group Discussion

- In your groups, please discuss the following three questions:
  - ◆ Do the draft plan's goals, objectives, and strategies, appropriately address the HIV epidemic?
  - ◆ Are there any critical gaps in the HIV Plan's goals, objectives, and strategies? If so, please specify the gaps.
  - ◆ Do any of the HIV Plan's goals, objectives and strategies cause concern? If so, please specify the goal, objective, or strategy, and describe the concern regarding it.
